

# Karol Bucior

## ABOUT ME

I am an ambitious and dedicated web developer for whom development in this field is a real passion. I have a year's experience in creating websites on the WordPress platform and managing their content and functionality.

I skilfully combine creativity with technical precision, ensuring high quality of completed projects and attention to detail. I have an excellent understanding of user needs, which allows me to create websites that are not only aesthetically pleasing, but also user-friendly. I am open to new challenges and constantly improve my skills by following trends and new solutions in the world of web design.
